

Level 1 Introduction to Workshop Skills (Part-Time) January Start

This 16 week course will provide you with an introduction to machining skills using Lathes and Milling machines. During this course you will learn the basic skills required for both turning and milling operations. Alongside gaining experience in using the machines, you will also learn the Health & Safety requirements of using the machines and learn how to use measuring equipment such as micrometers and Vernier calipers. You will be required to provide your own PPE for this course including overalls, safety boots and safety glasses.

Entry Requirements

No formal entry requirements required.

Career Prospects

This course will assist with progression onto Full-time or Part-time courses in Engineering.

Course Modules

Introduction to Milling & Turning.

Assessment

No assessments
