

Level 2 Plumbing Route Qualification in Building Services Engineering (Full-Time)

The EAL Progression in Building Services Engineering – Electrical Pathway (Level 2) has been developed as a post-16 qualification for individuals working in or intending to work as plumbers in the building services engineering (BSE) sector. This qualification will enable learners to go on to study other Level 3 BSE courses relevant to their chosen trade. The course is delivered over two evenings over two years.

Entry Requirements

- learners aged 16+ currently working in or intending to work in the BSE sector.
- learners who have achieved the Foundation in Construction and the Built Environment qualification but do not yet have an employer to continue to an apprenticeship.
- Mature learners on an interview basis.

Career Prospects

Learners would expect to find apprenticeship or employment opportunities as a plumber.

Course Modules

All learners will complete three mandatory core units which holistically cover employment, employability skills and general BSE practices in the sector over time.

Assessment

A mix of course work, practical assessments, and online exams.
