

## Mobile Apps Development (Part-Time)

Mobile application development is the set of processes and procedures involved in writing software for small, wireless computing devices, such as smartphones and other hand-held devices

Mobile phones have become as essential to people as a purse or wallet. They now drive our retail purchases, guide our travel, and capture images of important memories. This essential consumer tool is now driving business activity as well.

This course will help you develop the skills required to create your own mobile Apps.

### Entry Requirements

There are no entry requirements. However, you need to have a keen interest in Computing and access to your own mobile device and development tools.

### Assessment

Internally assessment via controlled tasks and producing a portfolio of evidence.

### STUDY MODE

PT

### LOCATION
